

m:Print® v4.0

Bar Code Labeling Software

Any Label. Any Printer. Your Design.

**1-Click Print
Technology**

HCP
Spring 2022

The collage illustrates the m:Print v4.0 software ecosystem. It includes a computer monitor displaying the software's main interface with various menu options like 'Package/Label Operations', 'Add/Edit Label Templates', and 'Reports'. A handheld barcode scanner is positioned in front of the monitor. To the right, a large industrial printer is shown printing a long strip of labels, and a smaller desktop printer is also visible. Below the main interface, a screenshot of the 'Add / Edit Drug Data' window is shown, featuring a table of drug information.

Trade Name	Generic Name	NDC10	NDC11	UPC	EAN	Custom Drug	Custom Drug Name
TH Aspirin Low Dose	Aspirin	4307200411	4307200411				
TH Aspirin	Aspirin	4307200441	4307200441				
Aspirin EC Low Dose	Aspirin	4329256016	4329256016				
Aspirin	Aspirin	4329255805	4329255805				
TH Aspirin	Aspirin	4307200463	4307200463				
TH Aspirin Low Dose	Aspirin	4307200585	4307200585				

Below the table, there are fields for 'Control Symbol', 'Bottle Size', 'Fractional Pill', and 'Pill Image'. The 'Pill Image' field is currently empty, with a 'Browse' button next to it.

NEW Auto Fill Features:

- Manufacturer Lot No.
- Manufacturer Expiration Date
- GTIN
- Bottle Serial no.
- Beyond Use Date

*Windows® Drivers Required

The software that powers iPack® Rx

Complete bar code labeling solution for any pharmacy.

m:Print®

Bar Code Labeling Software

1-Click Print
leveraging the power of
Artificial Intelligence
Assistance

New in v4.0

- FDA DSCSA Barcode Fields
- **Automatic Package Numbering**
- Bar Code Constructor
- Network Version 2022
- Remote RPh Approval*
- Hazardous Drug Indicator
- **Auto-Populate** BUD
- **Instant** Previous Label Lookup
- Custom Designed Reports
- International Version
- Multi-Language Enabled for International Use
- Enhanced Data Filtering Functions
- Pill & Label Image printed on reports
- USP 1146 & USP 1178 BUD Calculations
- Unlimited Custom Fields
- **Scheduled** Database Backup
- Pre-Print RPh Approval
- Welcome Screen with User Message Board
- Fractional Pill Indicator
- SQL Database
- Import Drug Database

* Network Version Only

MediSpan® Drug Database
NDC drug database with over 150,000 drug records, including complete drug information, drug images, and tallMAN lettering for look-alike, sound-alike drugs.

Bar Code Constructor Module

Build custom 2-D and linear bar codes with multiple drug data fields within the bar code.

2-D and Linear Bar Codes

Included support for Data Matrix, Aztec, QR as well as most popular linear bar codes.

Computer Requirements

- Windows® 10 or Windows® 11

- Minimum 2 USB Ports

Microsoft SQL Server

Robust enterprise-class database makes sure your data stays secure and safe.

Premier GPO Contract #PPPH20PRS01

Any Label. Any Printer.*

*If you can design it, m:Print® will print it on any Windows® supported printer.

Enhanced Data Filtering:

- Reports
- Drug Database
- Pharmacist Approval

Print in Color

- Use color coding to increase label accuracy and patient safety
- Print pill images on labels to help reduce medication administration errors
- All Windows font sizes & types

clearTag™ Label

Clear stemmed flag labels for vials, ampoules, and syringes. Scratch/moisture resistant will not obscure manufacturer's labeling.
