

When it comes to distributing prescription meds, there's the...

Old way

SafeSealRx way.

The new SafeSealRx heat-sealing system.

SafeSealRx™

A prescription for business success

Introducing the SafeSealRx™ Blister Card Heat Sealer

The accurate, safe, affordable way to seal prescription meds in blister packaging.

We're putting technology to good use. And now you can too. SafeSealRx is the revolutionary new way to enhance patient safety and increase your operating efficiency. It seals prescription meds in blister packs for sanitary and controlled distribution at hospitals, long-term care facilities, and retail pharmacies.

Manufactured in the US, SafeSealRx is the inexpensive solution you're looking for to service your long-term care

customers. It meets all the safe requirements and is pre-programmed for ease of use - producing reliable results every time. Plus, the modern, compact design will fit into your work environment and SafeSealRx can be cleaned and disinfected easily. It even comes with a lifetime warranty. The remarkable SafeSealRx heat sealer. Technology at its best, so you can do what's best for your customers. For more information, log on to pearsonmedical.com
